

PROJECT: CUSTOMER SUPPORT TICKETING SYSTEM

Objective

Build a system to manage Customers, Support Tickets, Support Agents, Ticket Categories, Resolutions, and Customer Feedback.

1. Data Model (Objects Creation):

Standard Objects

- Account → Customer Company
- Contact → Customer

Custom Objects

Support_Ticket__c

- Ticket_Number__c (Auto Number)
- Ticket_Title__c (Text)
- Ticket_Type__c (Picklist: Technical, Billing, Service, Product)
- Priority__c (Picklist: Low, Medium, High, Critical)
- Status__c (Picklist: New, In Progress, On Hold, Resolved, Closed)
- Description__c (Long Text Area)
- Created_Date__c (Date)
- Customer__c (Lookup → Contact)
- Assigned_Agent__c (Lookup → Support_Agent__c)

ANUSRI TALENT SOLUTIONS

Support_Agent__c

- Agent_Name__c (Text)
- Employee_ID__c (Text)
- Department__c (Picklist: Technical, Billing, Customer Service)
- Email__c (Email)
- Phone__c (Phone)

Resolution__c

- Ticket__c (Lookup)
- Resolution_Date__c (Date)
- Resolution_Details__c (Long Text Area)
- Resolution_Status__c (Picklist: Pending, Completed)
- Resolution_Time__c (Number)

Ticket_Category__c

- Category_Name__c (Text)
- Description__c (Long Text Area)

Customer_Feedback__c

- Ticket__c (Lookup)
- Rating__c (Picklist: 1 Star, 2 Stars, 3 Stars, 4 Stars, 5 Stars)
- Feedback__c (Long Text Area)
- Feedback_Date__c (Date)

2. Relationships:

- Account (Customer Company) → Contact (Customer) (1-M)
- Contact (Customer) → Support Ticket (1-M)
- Support Agent → Support Ticket (1-M)
- Support Ticket → Resolution (1-M)
- Support Ticket → Customer Feedback (1-M)
- Ticket Category → Support Ticket (1-M)

3. Validation Rules:

- Ticket Title cannot be blank
- Ticket Creation Date cannot be a future date
- Resolution Date must be $\geq$ Ticket Creation Date
- Resolution Time must be greater than 0
- Feedback Rating is mandatory when Ticket Status is Closed
- Prevent duplicate tickets with the same Title and Customer

4. Record Types:

Support Ticket:

- Internal Ticket
- Customer Ticket

Resolution:

- Technical Resolution
- Billing Resolution

5. Security:

- OWD: Private
- Role Hierarchy:
 - Admin
 - Support Manager
 - Support Agent
 - Customer
- Profiles:
 - System Administrator
 - Support Manager
 - Support Agent
 - Customer User

ANUSRI TALENT SOLUTIONS

6. Flows:

Screen Flow

- Create Support Ticket
- Assign Ticket to Support Agent

Record-Triggered Flow

- When Ticket is Created → Status = New
- When Resolution is Completed → Status = Resolved
- When Customer Feedback is Submitted → Status = Closed

Scheduled Flow

- Daily send reminders for High Priority Tickets
- Notify Support Manager about overdue tickets
- Send customer satisfaction survey emails after ticket closure

7. Apex:

Trigger

On Support Ticket

- Prevent duplicate tickets for the same Customer and Ticket Title

Batch Apex

- Generate Weekly Ticket Performance Report

Schedulable Apex

- Send overdue ticket reminder emails
- Send daily support summary reports to managers

8. LWC Components:

Support Dashboard

- Display Open Tickets
- Display Ticket Status Summary

Ticket Management Component

- Create New Ticket
- Track Ticket Status

Resolution Component

- Update Resolution Details
- View Resolution History

Customer Feedback Component

- Submit Feedback
- View Feedback Ratings

ANUSRI TALENT SOLUTIONS

9. Reports & Dashboards:

Reports:

- Tickets by Category
- Tickets by Priority
- Open Tickets Report
- Resolved Tickets Report
- Agent Performance Report
- Customer Feedback Report

Dashboard:

- Total Tickets
- Open Tickets
- Resolved Tickets
- Pending Tickets
- Average Resolution Time
- Customer Satisfaction Rating
